- Each point of grammar will be counted.
- An average will be calculated from the number wrong/number correctly written.
- This will then be transferred into a grade based on the table below.  
--5 wrong out of 10 = 50%. That is a 5 in the table which is a 75%.  
--3 wrong out of 9 = 33%. That's a 3+ on the chart which will calculate into a 61%.

10—100%	9—95%	8—90%	7—85%	6—80%	5—75%
4—70%	3—60%	2—50%	1—30%	0—0%
